IDENTIFIERS Percentile Ranking

ABSTRACT

For each of the 50 states and the District of Columbia, this document provides two pages of tables and graphs, with data on 49 variables related to institutional, pupil, staff, and financial aspects of public elementary and secondary education. An introductory section explains that the data came from local education agencies (LEAs) and were aggregated at the state level. This section also discusses the relationship of LEAs' current expenditures to capital outlays and to expenditures made for LEAs by other agencies. Definitions of the variables are presented in a glossary. Among the data for 1979-80 included in the tables are the number of elementary, middle, secondary, vocational-technical, and other schools; average daily attendance and number of pupils transported daily; number of teachers, administrators, and other employees; pupil-teacher ratio; revenues from local, state, and federal sources; expenditures by LEAs and other agencies, broken down by type of expenses; and expenditures and revenue per pupil. For 19 of the variables, data are given for both 1978-79 and 1979-80, and each variable's 1979-80 national percentile ranking is shown on a graph. (RW)

National Center for Education Statistics

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

Foreword

The National Center for Education Statistics has published data on elementary and secondary school enrollments, staffing, finances, and other characteristics for many years. In the past, these reports were presented in text form and included tables listing data reported by each State.

This compendium is a compilation of institutional, pupil, staff, and finance data about local education agencies presented in summary and profile form. The State summary shows the actual data reported for the LEA's in each State and percent distributions of certain variables. The profiles show how each State ranks with respect to other States on each of the selected variables. The compendium is intended as a quick reference source for persons needing easily accessible information about elementary and secondary education in a particular State. Other NCES publications provide more detailed information about State public school systems.

We wish to acknowledge the statistical assistance rendered by Delores Austin who compiled and computed many of the variables included in this compendium.

Introduction

When the U.S. Office of Education was created by the Congress in 1867, it was given responsibility for gathering data about education in the United States. Its mandate was to "collect such statistics and facts as shall show the condition and progress of education in the several States and territories." Since 1965 this function has been assumed by the National Center for Education Statistics (NCES). The purpose of the Center shall be to "collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States" -Sec. 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

This compendium aggregates State statistics about public elementary and secondary education in the 50 States and the District of Columbia. These data, provided by local education agencies (LEA's), provide quick access to selected statistics most frequently requested. In addition, it shows the percentile rank of selected characteristics with respect to the distribution of those characteristics among the States.

Data Sources

The National Center for Education Statistics and representatives from each of the State education agencies (SEA's) jointly developed the Common Core of Data reporting system from which the local education agency (LEA) data included in this compendium were selected. These data were reported to the SEA's by LEA's and compiled by the SEA's for the Center.

The data presented in this compendium represent State aggregates of these LEA reports. Data about SEA operations and schools operated by these agencies are not included.

Comparability

Definitions of terms used by State education agencies (SEA's) to collect data from local education agencies (LEA's) are not uniform from State to State. Furthermore, each State sets forth its own recordkeeping and accounting requirements. This results in some lack of comparability among the States with respect to the more detailed aggregates and must be kept in mind when comparisons are made among the States.

Several known instances of lack of comparability among the States are described below. California includes "legal" absences with days attended in computing average daily attendance, while other States do not. States vary in their designations of grade spans used to classify membership as elementary or secondary. (The grade span used by each State is shown on the State summaries.) Few States count fall membership

on October 1, but all are within a week or 10 days from this date. Total expenditures are generally comparable, but expenditures reported by function are not. For example, some States will include expenditures for school administration as instruction, while others will charge it to administration. Also, a few States charge expenditures for employee benefits to the function in which the employee is assigned, while most include this amount as fixed charges.

As a result of this lack of comparability, absolute comparisons among the States on some characteristics must be interpreted with caution.

Notes On Finance Data

Current expenditures were made for or on behalf of local education agencies by other agencies in 35 States during the 1979-80 school year. According to table A, about three-fourths of expenditures made for or on behalf of local agencies by other agencies were for fixed charges—contributions to employee retirement systems. Almost 15 percent of such expenditures were made for purchases of textbooks and other instructional expenses. The remaining 10 percent was distributed among other functions.

Current expenditures made for or on behalf of local agencies by other agencies are paid for out of revenues generated by the agencies making such expenditures. Such expenditures, therefore, are not charged as local education agency expenditures and are not reflected by the revenues generated by the local agencies. These expenditures are a form of indirect State aid and may be reflected by lower local property tax rates, since the local agencies do not need to generate revenues to support these expenditures.

To show how the States differ with respect to this type of funding mechanism, two sets of current expenditure data are presented in this compendium. One reflects current expenditures made by local education agencies and the other, total current expenditures made for services provided by local agencies (including expenditures made for or on behalf of local agencies by other agencies).

Table B shows the relationship of current expenditures to other outlays of funds. It also shows how current expenditures per student for services provided by local education agencies are calculated and how current expenditures made by all agencies and those made by local agencies are determined. Debt service, capital improvement, and community-service outlays made by other agencies, however, are not reported and are not included in table B or the compendium.

This compendium presents (1) only revenues received by local education agencies, (2) current expenditures for services provided by local education agencies and made by local agencies and other agencies, and (3) outlays for debt service, capital improvements, and community services made by local agencies. Total revenues, outlays, and current expenditures for public elementary and secondary education in each State are not presented here since the compendium does not include financial data on elementary and secondary education services provided by such other agencies as state-operated schools for the handicapped, prison schools, and mental institutions.

Table A.—Total current expenditures and current expenditures made for or on behalf of local education agencies by other agencies, 1979-80

Function	No. of States	Total current expenditures (\$000's)	Expenditures made for or on behalf of local agencies by other agencies		
			Amount (\$000's)	Percent by function	Percent of total
Total	35	\$63,308,151	\$4,684,900	100.0	7.4
Administration	7	2,367,566	81,322	1.7	3.4
Instruction	19	38,910,685	685,669	14.6	1.8
Transportation	8	2,620,118	57,433	1.2	2.2
Plant	3	7,072,720	11,657	0.2	0.1
Other services	7	3,585,081	318,324	6.8	8.9
Fixed charges	28	8,751,981	3,530,495	75.4	40.3

Table B.—Current expenditures and other outlays of funds for public elementary and secondary education, 1979-80

(Amounts in thousands)

Total outlays		\$99,772,126
Debt service		(5,818,283)
Interest	1,859,666	
Principal	3,376,744	
Other	581,873	
Capital improvements		(6,506,167)
Land & buildings	5,237,291	
Equipment	1,268,876	
Community services		(572,832)
Current expenditures (by all agencies)		<u>86,874,844</u>
Current expenditures made for or on behalf of local agencies by other agencies		4,684,900
Current expenditures (by local agencies)		82,189,944
Average daily attendance		38,288,911
Current expenditure per pupil (all agencies)		\$2,269
Current expenditure per pupil (local agencies)		\$2,147

Methodology

A profile of selected characteristics is plotted under a percentile scale opposite each State's summary of data. The percentile rank and value of each characteristic is also given. These profiles show how each State compares with other States and the degree of variability among the characteristics within the State.

To obtain percentile ranks, the values reported by the States for each characteristic were arranged in descending order. The percentage of the values falling at or below each value in each distribution was then calculated.

The percentile rank of the value of a specified characteristic reported by a State represents the percentage of States that reported a value less than or equal to the one reported by the given State. For example, if a State's average current expenditure per pupil is \$2,000 and this is given a percentile rank of 45, it means that 45 percent of the States reported average current expenditure per pupil of \$2,000 or less. Since these percentile ranks were computed on an unweighted basis, the results differ from those that would have been obtained had each State's current expenditure per pupil been weighted by the number of pupils in the State.

The following table shows the values of each characteristic at the 10th, 30th, 50th, 70th, and 90th percentiles. This table reflects the degree of variation that exists among the States with respect to each characteristic shown on the State profiles.

Characteristic	Percentile rank				
	10	25	50	75	90
Average Daily Attendance	95,055	189,199	513,475	935,960	1,770,435
Pupils Per Square Mile	1.6	4.6	13.8	25.5	64.9
Pupil/Teacher Ratio	16.1	17.3	18.7	20.4	21.2
Percent of Pupils Transported	27.3	41.3	55.0	64.2	75.2
Revenue Per Pupil	1,732	2,088	2,392	2,775	3,145
From Local Sources	482	643	1,039	1,479	1,802
From State Sources	644	877	1,088	1,186	1,617
From Federal Sources	164	188	246	282	369
Current Expenditure Per Pupil (By Local Education Agencies)	1,562	1,713	2,064	2,404	2,626
For Administration	36	56	81	109	150
For Instruction	982	1,117	1,287	1,512	1,710
For Transportation	52	81	104	122	150
For Operation & Maintenance of Plant	160	197	248	288	347
Current Expenditure Per Pupil (By All Agencies)	1,629	1,868	2,064	2,503	2,816
For Administration	42	56	85	117	150
For Instruction	988	1,135	1,287	1,530	1,710
For Transportation	55	83	104	122	150
For Operation & Maintenance of Plant	166	197	248	293	347

Definition of Terms

Operating Local Education Agency. Operates schools for its resident school-age children.

Nonoperating Local Education Agency. Does not operate schools, but contracts with other educational agencies (on a tuition or other basis) for educational services for its resident school-age children.

Elementary School. Provides instruction for pupils in any combination of grades below grade 9 with at least one grade below grade 7.

Middle School. Provides instruction for early adolescent learners—usually beginning with grade 5 or 6 and including 2 or 3 higher grades.

Secondary School. Provides instruction for pupils in any combination of grades above grade 6, but not higher than grade 12.

Combined Elementary/Secondary School. Provides instruction for pupils in any combination of grades, at least one of which is below grade 7 and one above grade 8.

Special Education School. Provides instruction for handicapped pupils exclusively.

Vocational/Technical School. Provides vocational and technical education for pupils seeking entry-level-occupational skills.

Alternative School. Provides a nontraditional curriculum designed to meet pupil needs that cannot be met in regular schools.

Average Daily Attendance. Aggregate days attended by students enrolled in local education agencies during the school year divided by the number of days in the school year.

Fall Membership. The number of pupils on the official roll of local education agencies as of October 1 of the school year or the nearest date thereto when the count is taken by the State.

Elementary. The number of pupils enrolled in grades classified by the State as elementary grades.

Secondary. The number of pupils enrolled in grades classified by the State as secondary grades.

Note: The grade spans included within each level are shown for each State on the summary data pages.

High School Graduates. The number of persons completing high school graduation requirements in regular schools, operated by local education agencies, who were awarded high school diplomas during the school year. This does not include other persons receiving high school diplomas from other programs or high school equivalency certificates.

Pupils Per Square Mile. The fall membership, divided by the area of the State.

Average Number of Pupils Transported Daily. Aggregate pupil days transported to and from schools operated by local education agencies during the school year, divided by the number of days during the school year when transportation was provided.

Percent of Pupils Transported. The average number of pupils transported daily, divided by the average daily attendance expressed as a percentage.

Total Staff Employed. The full-time equivalent number of persons employed by local education agencies on or about October 1 of the school year. The major assignment classifications used are self-explanatory.

Pupil/Teacher Ratio. The number of pupils in fall membership, divided by the full-time equivalent number of classroom teachers as of the date these counts were taken.

Revenues. Additions to assets of local education agencies that do not: (1) increase any liability, (2) represent the recovery of a prior expenditure, and, (3) represent the cancellation of certain liabilities without a corresponding increase in other liabilities or a decrease in assets. Revenues constitute the major portion of funds used by local education agencies to provide educational services from:

Local Sources. Amounts of funds raised by taxation and other means from within the boundaries of the local education agency.

State Sources. Funds received by local education agencies in the form of grants-in-aid made by State government agencies.

Federal Sources. Funds received by local education agencies in the form of grants-in-aid made by Federal Government agencies.

Nonrevenue Receipts. Amounts borrowed by local education agencies and not repaid during the school year, the value of assets converted to cash, recovery of prior expenditures, and compensation for losses of previously acquired assets.

Current Expenditures. Expenditures of the current year made to provide direct educational and support services.

Administration. Expenditures made to pay the costs of managing the affairs of the local education agency.

Instruction. Expenditures for salaries and materials used to provide instructional services.

Transportation. Expenditures made to provide pupil transportation services.

Operation and Maintenance of Plant. Expenditures for salaries, materials, and supplies needed to keep the schools and other facilities of the local education agency open and habitable.

Pupil Services. Net expenditures for student body activities, food services, and attendance and health services.

Fixed Charges. Employer contributions to employee retirement systems, group health and insurance plans, workman compensation, and expenditures for rents, insurance premiums, etc.

Acquisition of Property. Expenditures made by local education agencies for the acquisition of land and improvements thereto, buildings and additions and major remodeling, and equipment.

Debt Service. Outlays of funds made by local education agencies during the current year to redeem outstanding debt, interest payments on outstanding debt, and payments to school housing authorities (in some States) for the lease-purchase of land and buildings. (Payments to school housing authorities include principal, interest, and administrative costs.)

Community Services. Expenditures for private school services and other services to the community such as summer playgrounds, library services, etc., made by local education agencies.

Revenue Per Pupil. Total revenue divided by the average daily attendance.

Current Expenditure Per Pupil. Total current expenditures divided by the average daily attendance.

Expenditure Per Pupil Transported. Expenditures for pupil transportation divided by the average number of pupils transported daily.

Special Note: When current expenditure per pupil is compared with revenue per pupil, the former will always be smaller than the latter, since current expenditure does not include outlays for acquisition of property and debt service.
